ABOUT ME

I am a skilled Blockchain, Ethereum DApp developer with a passion for front-end technologies.I have a track record of building fluid and dynamic interfaces with emphasis on user friendliness. I have full command on JavaScript and Vue.js, and can produce optimized, clean and browser-compatible designs. My interest in Ethereum has also made me an expert in the Web3 APIs.

Frontend developer with expertise in requirement gathering and analysis, architectural design, component and interface design and development for web-based applications in multiple domains.
